

Is YOUR deck safe?

- Do you really know the condition of your deck, verandah or stairs?
- How long since your property was inspected?

Elevated deck, verandah and stairs inspection reports by qualified architects

- Be confident your deck is still safe and trouble free
- Enjoy our beautiful climate and entertain your guests - with peace of mind

Big or small, open or semi enclosed, external structures like decks, verandahs and stairs are exposed to the environment and more vulnerable to deterioration and decay than internal rooms

Enjoy your lifestyle fully - at ease knowing your deck, verandah and stairs are safe, well built and maintained.

Only Shelter Architects provides a dedicated report inspecting and reviewing the following area of your verandah or deck, from roof to ground level, including:

- Roof sheeting, gutters, downpipes
- Rafters, purlins, battens
- Verandah plates, brackets, embellishments and posts
- Balustrade, lattice work, doors and windows
- Stairs and railings
- Decking, floor framing, joists and bearers
- Pole plates, stumps, posts, stirrups and support brackets

Peace of Mind

Give yourself the peace of mind to not worry about potential problems.

Call Shelter Architects for a comprehensive "Elevated Deck Report" for your property.

Reports cost from as little as \$220 incl. GST.
